

Do More With Less!!

(Work Smarter and Go Faster)

Requirements Development Management
(RDM) for

Business Data

Analytics

(The Language of Data)

Requirements Agenda

Business Data Analytics "The Language of Data"

01-FOUNDATION

- **LAB-Introductions (Name, Job Title, Objectives)**
- Dashboards and Robots (Data Mining & Machine Learning)
- Requirements and Testing (Four Quadrants)
- What are Structured Language Requirements? (Structured English and Structured Query Language)
- Why Should You Care? (Primary Source of Project Problems)
- How Do They Work? (Discreet Intellectual Property Inventory)
- Types of Requirements (Product, Project, DATA)
- Natural Language Processing (Morphology, Semantics, Syntax and Linguistics)
- OMG-SBVR (Semantics of Business Vocabulary & Rules)
- IEEE-EARS (Easy Approach to Requirements Syntax)
- INCOSE (Rules for Writing Requirements) & QVscribe
- Waterfall and Agile (Assembly Methods)

02-ELICIT

- **LAB-Vision/Scope (Seek to Understand)**

Elicitation Techniques:

- Document Analysis (Low Hanging Fruit)
- Interface Analysis (Navigation & Functionality)
- Benchmarking (Actual Data)
- Brainstorming (Every Idea is a Good Idea until it becomes a Bad Idea)
- Prototyping (Minimum Viable Product)
- Reverse Engineering (Begin with the End in Mind)
- Interview (Thinking Questions)
- Workshop (Group Interviews)
- Observation (What do you See?)
- Survey Questionnaire (Paper equals proof)

03-ANALYZE

- What are Models? (Pictures of Language)
- **LAB-The Language of Modeling (GIVEN pre WHEN process THEN output-result)**
- Types of Models (Context-Structure, Usage, Data Behavior, Process Flow)
- Context-Structure (Vision, Roadmap, Scope WBS)
- Usage (EPIC, UseCase, UserStory, Feature)
- Data Behavior (ERD, JOIN-Denormalization, Star Schema, Dimensional OLAP, Dashboard, Intelligence)
- Data Behavior (Data Dictionary, DataFlow, Data Structure Instance, Data Element Attribute, Data Store)
- Data Behavior (Process Logic, Business Rules)
- Process Flow (Swimlane)

04-DOCUMENT

- Categorization, Organization, Documentation, Integration, Automation
- Making Documents Easy to Read (Fonts & Navigation)
- Document Types (BRD, TRD)
- **LAB-Business Requirement Document (Concept of Operation)**
- Technical Requirement Document (System Specification)

05-VALIDATE

- Validation thru Triangulation (Prep Drills)
- Traceability (Project Unique Identifier)
- Requirements Baseline (ROM Estimate, Planning Estimate, Definitive Estimate)
- **LAB-Estimating Story Points (Complexity and Risk)**
- Lessons Learned (Course Wrap-Up)

Software Workflow Huge
Integration + Automation = Profits

Script Debugger	MS Project	Stuffit Expander	AccountEdge	CD Finder	Quokeys	Canto Cumulus	Macromedia DreamWeaver
Sherlock	FinalCut Pro	QuickTime	BeMail	FindIt	InDesign	Timbuktu	Finder

Overview "Seek to Understand"

- How to work smarter and go faster,
- Why you should care about efficiency, and
- The 3 ways that people operate

Do More With Less!!

(Work Smarter and Go Faster)

"Do More with Less!"

Work Smarter and Go Faster.

"The Cooking Show Method: everyone eats, knows something about food, and can relate to the endeavor."

- 1. Design for ReUSE (Structured Requirements)**
- 2. Prep in Advance (Agile Assembly)**

- *Why be Efficient?*
 - Money Loses Value Over Time.
 - 100% of the People are not 100% Productive 100% of the Time.
- *Who Cares?*
 - Anyone who works with technology.
 - Operational work will be outsourced to Machine Learning.

- Why Should You Care about Efficiency?
 - 1. Money Loses Value over Time**
 - 2. 100% of your People are not 100% Productive 100% of the Time.**

1. Money Loses Value over Time because of Inflation

PV	Then Year 1	And Year 2	And Year 3
If Inflation is @ 3%	\$1 buys...	\$1 buys...	\$1 buys...
\$1.00	\$0.97 worth of stuff	\$0.94 worth of stuff	\$.91 worth of stuff

Network Utilization

% Productive vs "Administrivia"

100% of your People are NOT...
100% Productive...
100% of the Time.

- Studies show that most Institutions Operate at roughly 70% Productivity
 - 70% Billable Work
 - 30% Administrivia (non billable work)
- Fully Burdened Resource (Salary + Benefits + Overhead)
\$100,000 (What you are paying)
(-) \$70,000 (What you are getting)
= \$30,000 (Opportunity for improvement)

- Lesson #1: The Game is Rigged Against You
– *(when you don't know you are in a game)*
- Lesson #2: IT is more about Psychology than Technology
- Lesson #3: The reason we all have jobs is because **Executives have KPIs (measurable objectives)**

Three Ways People Operate

- 1. ROUTINES**
- 2. ReWORK**
- 3. Need to Know**

Summary "Train the Trainer"

- How to work smarter and go faster,
- Why you should care about efficiency, and
- The 3 ways that people operate

Let's stay in contact with each other...
